

NEOSTRATA®

THE SCIENCE OF VISIBLY HEALTHY, EVEN SKIN

ENLIGHTEN

15% Vitamin C + PHA Serum

Visibly fade dark spots and even skin tone.

This potent brightening serum, powered by pure 15% Vitamin C (L-Ascorbic Acid), is precisely formulated at an optimized pH and concentration for effective results and is clinically proven to visibly target dark spots, uneven skin tone and texture.

EVEN THE APPEARANCE OF SKIN DISCOLORATIONS WITH 4 POWERFUL ANTIOXIDANTS FOR BRIGHTER, MORE RADIANT SKIN.

15% L-Ascorbic Acid (Vitamin C)—Brightens the appearance of skin discolorations to reveal an even, radiant complexion

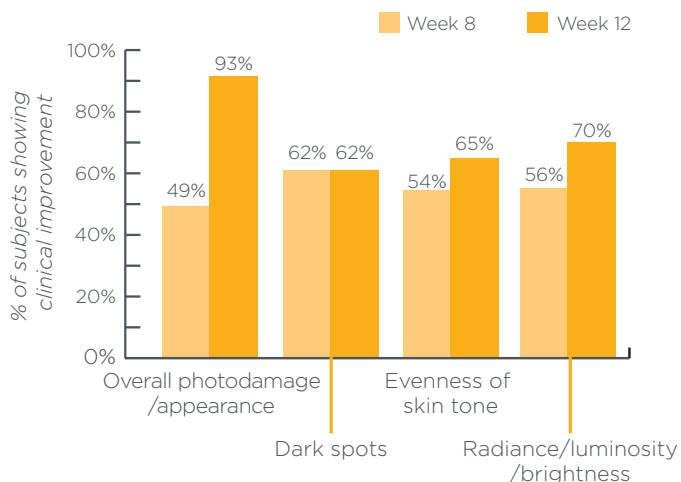

2% Gluconolactone (PHA)—Gently exfoliates skin so Vitamin C can absorb into fresh, renewed surface layers

1% Feverfew Extract—Enhances skin's naturally occurring antioxidants to support protection against drying environmental aggressors, such as pollution, that could worsen uneven tone

Green Tea Extract—Boosts Vitamin C antioxidant capacity

Fragrance-free, Dye-free, Mineral Oils-free

SIGNIFICANT IMPROVEMENTS IN THE APPEARANCE OF DARK SPOTS, UNEVEN TONE AND TEXTURE.*
Clinical Grading

*All parameters showed statistically significant improvement $p < 0.05$
